

We, deafies pay same as hearing people to FCC...ALL deaf people should be equal with hearing people....VRS is my MAINLY IMPORTANT because we, some deaf do not type good English that relay people sometime hard to understand what we say, even others who we call.....Please understand that deaf people will need VRS all the times to make us easy communicate with VRS by sign language....Hearing people have many things what they can or want, so treat deaf people like them....we are all human except our hearing loss...
